An exchange gives the following useful hint: "If the chimney catches fire run for the salt box and empty it out on the flames; they will be reduced as if by magic, and further steps can be taken to subdue the out break. If soot falls upon the carpet or rug do not attempt to sweep it until it is covered thickly with dry salt; it can then be swept and properly and not a stain, or sugar will be left."

INGALLS' DEFEAT

Has caused a great furor in political circles and the McKinley bill has played havoc with the tariff. Star tobacco can now be bought at 35 cents a pound and New Orleans sugar 20 pounds for a dollar. Arbuckle and Lion coffee, too, has to yield to the Alliance System—25c per lb. or 4 lbs for 95c. The soda trust is broken now and it will be glorious news to the Alliance people to know they can buy a full pound of ackage of either the arm and hammer or cow soda for 5c. It was the almighty power of the Alliance System that defeated Ingalls and it is the power of the almighty dollar cash in hand that will purchase at the above prices at Baldwin's Alliance System store.

NO ILLUSION! BUT A FACT.

It is one of those facts that cannot justly be disputed. When a man or woman comes to our store for the first time and makes a purchase a dollar will appear to them about this size:

In ninety-nine cases out of a hundred they will find that a dollar is really larger than they thought and will come back to us. The result is that in a few weeks the dollar seems to increase in their eyes to something like this:

The consequence is that they conclude they have found the right place where a lasting and substantial dollar's worth can be had and their savings increase to such an extent that at the end of a few months a dollar in their estimation assumes proportions like this:

It is no optical illusion but a pleasing reality and if you would like to test it give us a call.
